

TEAM CONSULTING

We Are Greater Than Me

WEBSITE DEVELOPMENT MASTER BRIEF

Company Profile | Website Content | Technical Specifications

Harare, Zimbabwe | 2026
www.teamconsulting.co.zw | info@team.co.zw

How to Use This Document

This document is the single source of truth for the TEAM Consulting website build. It is divided into two main parts:

- PART A, COMPANY PROFILE: All content about who TEAM Consulting is, what we do, our team, our clients, and our values. This is the content that will populate the website pages.
- PART B, WEBSITE BRIEF: Technical specifications, page structure, functional requirements, and design guidance for the developer building the website.

The developer should read both parts. The web content writer or marketing team should focus on Part A. Both parts must be read together when building any specific page.

PART A

COMPANY PROFILE & WEBSITE CONTENT

A1. About TEAM Consulting

The Firm

TEAM Consulting is a dynamic professional services and management advisory group focused on helping organisations unlock their full value in people, processes, and products in order to realise organisational significance.

Founded in Zimbabwe in 2004, TEAM has spent over two decades providing strategy-based business advisory services to a wide range of private, public, and non-profit organisations across the Sub-Saharan African region. What began as TEAM Consulting has evolved into a truly African business advisory firm, TEAM Advisory Services, with registered offices in Zimbabwe and Zambia, and partner-based arrangements across various other African countries.

The practice operates on a cost-effective associate model: tailored engagement teams assembled from a network of specialists across strategy, process, culture, governance, technology, and wellness. This structure affords the integration of a larger firm with the responsiveness of a focused boutique.

20+ Years in Practice	13+ Consultants & Associates	80%+ Repeat & Referral Clients	6+ Sectors Served
---------------------------------	--	--	-----------------------------

Our Philosophy

Our philosophy is derived from our name, TEAM, as we recognise and embrace the notion of excellence through collaboration: the belief that together, “we are greater than me.”

At TEAM, we build teams with our clients, bringing together the best possible people to undertake any strategic business intervention anywhere in the world. We believe that providing simple value is not enough; the value created must move the organisation to a new level of significance and positive impact on all its stakeholders.

Our Foundation: The Four Strands

TEAM Consulting is a faith-rooted practice. The firm holds that effective advisory begins with character: wisdom over expediency, service over self-interest, significance over commercial success. This conviction shapes every engagement. Four values govern the firm, acting as the intertwined backbone of our culture:

SEEK FIRST	We establish our foundation through humility and spiritual grounding, prioritising truth and significance over mere success. We pursue understanding before prescribing solutions. “But seek first the kingdom of God and his righteousness, and all these things will be added to you.”, Matthew 6:33
SERVE DILIGENTLY	We expand our reach with excellence and compassion, honouring the trust of our clients, supporting our colleagues, and remaining committed to the greater good of our community. We deliver with excellence to clients, colleagues, and the community.
STEWARD WISELY	We practise disciplined management of the time, talent, and relationships entrusted to us, ensuring operational rigour and transparent results. We guard resources, relationships, and results with disciplined custodianship.
STAND FIRM	We uphold principled conduct in truth, trust, and transparency, choosing courage over convenience in every communication and solution. We always uphold what is right.

Our Strategic Evolution: Unlocking Synergy

TEAM Consulting has evolved from a “Quantum Leap Value” positioning to a more human-centric, collaborative theme: “We Are Greater Than Me.” This reflects a shift from focusing on the magnitude of change to the synergy of change, building organisations more capable than the sum of their individual parts.

This evolution underpins our outcome-based consulting model, in which we no longer sell standalone services but packaged outcomes, assembling our expertise to solve each client’s most pressing needs.

A2. What We Deliver

The GREATER Framework

Every engagement is scoped against seven measurable outcomes, captured in the acronym GREATER. Every engagement begins with a GREATER Diagnostic: a structured assessment of the client’s position across all seven dimensions. It surfaces gaps, identifies quick wins, and provides the basis for a precisely scoped solution.

	Outcome	Description
G	Growth	Expansion of revenue, market share, and strategic reach through disciplined planning and execution.
R	Resilience	Structural and operational fortification against shocks, critical in Zimbabwe’s dynamic operating environment.
E	Efficiency	Systematic elimination of waste. Measurable improvement in resource utilisation and throughput.
A	Agility	The capacity to pivot decisively when markets, regulations, or competitors shift.
T	Thrivability	Long-term organisational health: regenerating people, processes, and competitive advantage continuously.
E	Engagement	A workforce aligned with purpose, producing discretionary effort and reduced attrition.
R	Results	Quantifiable impact across financial and operational indicators. The ultimate accountability measure.

Our Approach: Find. Get. Keep.

The firm’s delivery follows a three-phase cycle, ensuring value is not just created but sustained:

Find the Value DISCOVERY & DIAGNOSTICS	Get the Value EXECUTION & IMPLEMENTATION	Keep the Value SUSTAINABILITY & GOVERNANCE
Discovery and diagnostics. Quantify the return. Establish what is at stake. Identify the “size of the prize” and root causes of friction.	Heavy lifting: process redesign, technology deployment, and change management. Bridging the gap between strategy and operational reality.	Training, KPIs, and governance to embed new ways of working. This is where most engagements fail. For TEAM Consulting, it is non-negotiable.

Transparency as Method

The firm practises vulnerability-based consulting: the willingness to name difficult issues candidly, to ask the questions others avoid, and to transfer tools and methods so clients can sustain the work independently. This is not a philosophy of comfort. It is a philosophy of trust.

The commercial evidence speaks for itself. Over 80% of the firm’s clients come from referrals and repeat engagements.

A3. Our Service Offerings

TEAM Consulting follows tried and tested leading management methodologies, customised to suit the specific circumstances of each client. We offer an integrated practice, disciplines that connect, reinforce, and build upon one another, so that clients engage a single advisory partner across the full arc of transformation.

Our services are delivered through four business units: TEAM Consulting, TEAM Insights, TEAM Human Capital, and TEAM Wellness. These map onto four broad service categories:

1. Advisory (TEAM Consulting)

Providing clients with management consulting support across business insights, human capital, and business operations.

Strategy & Design

- Development of short- and long-term strategic and operational plans
- Design of business models for new and existing entities needing a refresh
- End-of-term evaluation of strategic plans and regular reviews of running strategies
- Establishing and implementing strategy monitoring mechanisms

Notable Assignments:

- Development of Government strategic plans for various ministries and local authorities in Zimbabwe and Namibia
- Development of business model for a women's microfinance bank as part of the start-up and licensing process
- Development and review of strategy for large private sector players in Financial Services, FMCG, Construction, Health, Energy, and Retail

Governance & Policy

- Board inductions and training on governance matters
- Developing strategic direction and accountability mechanisms
- Board performance evaluations and contracts
- Board–management teambuilding

Notable Assignments:

- Facilitation of Board Inductions for various State-Owned Enterprises and private sector companies
- Evaluation of Board Performance for various multi-sector institutions
- Development of Board Performance Contracts for various state-owned enterprises

Operations

- Supply chain optimisation

- Business process management and reengineering
- Cost transformation initiatives
- Development of best operating policies and procedures

Notable Assignments:

- Redesign and implementation of new procurement models for large mining operations, saving USD 4M
- Business Process Reengineering for players in Manufacturing, IT, Education, Financial Services, and Construction
- Review and redesign of manufacturing and distribution operations for consumer goods and industrial products companies

Sales, Marketing & Customer Relationship Management

- Customer strategy and CRM programme development
- New product design facilitation
- Customer engagement analysis

Notable Assignments:

- Analysis and development of CRM programmes for various retail players
- Facilitation of new product design processes for players in manufacturing, professional services, and agriculture

Implementation

- Strategy and operations implementation planning
- Implementation monitoring and evaluation
- Implementation coaching and project management

Notable Assignments:

- Project Management and Coaching support for implementation of key strategy reforms across the entire Government of Zimbabwe, supporting all ministries
- Coaching and implementation support for ease-of-doing-business reforms in Zimbabwe

2. Insights (TEAM Insights)

Using benchmarking, surveys, research, data analytics, and diagnostic tools to evaluate the operations of organisations and market activities, establishing insights to drive improvement and better decision-making.

Analytics & Research

- Conducting organisation-wide internal surveys and culture assessments
- Establishing and running benchmarks across companies
- Conducting market and community engagement surveys

Notable Assignments:

- Large-scale culture and employee engagement surveys for various private and public sector players
- Customer satisfaction and engagement surveys for the retail sector
- Benchmarking survey and analysis for the education sector

3. Human Capital (TEAM Human Capital)

Supporting organisations by building and strengthening the capacity of leaders and staff, managing change, and facilitating culture transformation initiatives.

Organisation & Culture

- Leadership development and coaching
- Culture transformation
- Change management
- Teambuilding and facilitation
- Staff development and capacity building

Notable Assignments:

- Facilitation of leadership development programmes for key players in financial services, health, and mining
- Driving culture transformation processes in financial services, health, and manufacturing
- Implementing and supporting change initiatives across multiple sectors in public and private entities

Technology & Digital

- Developing technology strategies and roadmaps
- Supporting digital transformation programmes
- Software business design, including custom software for performance management and implementation tracking

Notable Assignments:

- Development of IT Strategy for players in mining and financial services
- Development of software for performance management (Balanced Scorecard) and implementation tracking (Rapid Results)

Recruitment & Talent Advisory

- Organisational staffing support
- Talent management and job classification
- Human capital programme design

4. Wellness (TEAM Wellness)

Supporting individuals within organisations to ensure they bring their Head, Heart, and Hands to their work, ensuring people are in the correct state and space to give their best.

Workplace Wellness Support

- Reviewing and developing customised Staff Wellness Policy and intervention models
- Conducting Health Culture Baseline Assessments
- Promoting staff awareness on wellness matters through training and seminars
- Equipping staff as first-line responders in addressing wellness issues at work
- Providing individual and group counselling services
- Monitoring and evaluation of the impact of wellness interventions
- Supporting organisational staff redeployment or retrenchment processes

Coaching (Five Areas)

- Life Coaching, dealing with personal life issues
- Grief Coaching, dealing with personal issues related to loss and grief
- Business / Work Coaching, supporting the individual with work-specific issues
- Leadership Coaching, supporting the leader to be more effective
- Implementation Coaching, supporting teams to effectively implement their goals sustainably

Notable Assignments:

- Implemented workplace wellness programmes (training, transitioning, and talking) to support staff in financial services and manufacturing sectors
- Counselling services for individuals from various corporate organisations, both on their own behalf and as part of company-wide programmes
- End-of-life support for staff during organisation restructuring

A4. Our Team

PART B

WEBSITE BRIEF & TECHNICAL SPECIFICATIONS

B1. Website Overview

Objective

The website is intended to provide a clean, professional, no-frills representation of who TEAM Consulting is, with specific interactive features to engage visitors, generate leads, and support client service delivery.

The website should feel credible, warm, and African. It should reflect TEAM's faith-rooted philosophy and demonstrate depth of expertise without being overwhelming.

Domain & Redirects

- Primary domain: www.teamadvisoryservices.com (or equivalent)
- Redirect teamqlv.com to this site
- Redirect team.co.zw to this site
- Country email addresses to be set up: ZW@teamadvisoryservices.com, ZM@teamadvisoryservices.com

Technical Stack Guidance

- CMS: Must support easy article/blog posting by non-technical staff
- Email Integration: MailChimp (or equivalent) for mailing list and automated article notifications
- Chatbot: Basic FAQ bot triggered by keywords (e.g., "How much is a Strategy Workshop", "How long is a counselling session"). TEAM will supply FAQs and answers.
- Event Registration: Ability for visitors to register for events and receive automated confirmation emails; TEAM receives notification of registrations
- Client Login: Phase 2, redirect to Plutio for project access or training portal for paid training
- Analytics: Standard web analytics to track traffic and page performance
- SEO: All pages to be SEO-optimised

B2. Site Structure & Page Specifications

The website should have the following key pages accessible from the main navigation menu:

Main Navigation Menu

- Who Are We, Company overview, philosophy, and values
- Our Service Offerings, Service areas with sub-pages (dropdown or from the main page)
- Our Markets & Clients, Sectors served and client hall of fame
- Why TEAM?, Sub-pages: Our Team, Our Partners, Our Success Stories / Case Studies
- Ideas @ Work, Blog / Viewpoint, articles and thought leadership
- Upcoming Events, Training sessions, webinars, events with registration
- Contact Us, Contact form, FAQ bot, country office details

Page-by-Page Specifications

1. Home / Landing Page

- Hero section with TEAM tagline: “We Are Greater Than Me”
- Brief firm introduction (2–3 sentences)
- Latest 2–3 blog articles from Ideas @ Work, dynamically updated
- Key statistics (20+ years, 80%+ repeat clients, etc.)
- Call to action: “Contact Us” and “Explore Our Services”
- Mailing list subscription widget

2. Who Are We

- Full company profile: founding story, philosophy, evolution
- The Four Strands (Seek, Serve, Steward, Stand)
- The GREATER Framework
- Find. Get. Keep. approach
- Downloadable Company Profile (PDF)

3. Our Service Offerings

- Overview page explaining the four business units (Consulting, Insights, Human Capital, Wellness)
- Drop-down or sub-page for each service area:
 - Strategy & Design
 - Analytics & Research
 - Organisation & Culture
 - Technology & Digital
 - Operations
 - Sales & Marketing
 - Implementation

- Governance & Policy
- Wellness & Coaching
- Each sub-page to include: high-level description of the service, key interventions, notable assignments, and a downloadable service profile PDF
- Related blog articles from Ideas @ Work should appear on each service sub-page
- Online diagnostic questionnaire (see Free Diagnostic section below)

4. Our Markets & Clients

- List of sectors and markets served
- Geographic footprint across Sub-Saharan Africa
- Client Hall of Fame, categorised by sector
- Named partnerships section (Kippy KPI, eLearning Solutions)

5. Why TEAM?

Sub-pages:

- Our Team, Consultant profiles (name, role, experience, qualifications, focus areas)
- Our Partners, Strategic partner profiles with links to partner websites
- Our Success Stories, At least one case study per service offering area

6. Business Unit Pages

A dedicated page for each business unit is required. Each unit page should:

- Introduce the unit and its head
- Describe the related service offerings (same content as service offering pages)
- Units: TEAM Consulting, TEAM Insights, TEAM Human Capital, TEAM Wellness
- Country sub-pages to be added in a later phase; for now, Contact Us page must include details for each country (Zimbabwe and Zambia)

7. Ideas @ Work (Blog / Viewpoint)

- Section for downloadable articles and excerpts from TEAM's work
- Must be linkable: articles tagged to service areas, so they appear on the relevant service sub-page
- Landing page should surface latest articles
- When a new article is posted, it should automatically be emailed to all mailing list subscribers (MailChimp integration)

8. Upcoming Events

- List of upcoming training sessions, webinars, and events
- Each event to have a registration form
- Upon registration: visitor receives automated confirmation email; TEAM receives notification
- Events to be managed and updated by non-technical TEAM staff via CMS

9. Contact Us

- Contact form with fields for: name, email, organisation, country, nature of request
- FAQ chatbot / bot triggered by keywords to answer simple queries
- Contact details for each country:
 - Zimbabwe: ZW@teamadvisoryservices.com
 - Zambia: ZM@teamadvisoryservices.com
- Physical address: Harare, Zimbabwe
- Phone: +263 XX XXX XXXX
- Social media links

10. Free Diagnostic (Phase 1 Feature)

- A section where users input information about their organisation
- System generates an automated high-level report identifying areas of organisational weakness
- Linked to the GREATER Framework (Growth, Resilience, Efficiency, Agility, Thrivability, Engagement, Results)
- This section will grow over time and should eventually be linked to the Service Offerings pages
- Downloadable report output to be provided

11. Internal Staff Login (Phase 2)

- Button for client/staff logins
- Redirects to Plutio for project access, or to training portal for clients who have paid for training
- Not required for Phase 1

12. Journey to Significance (Phase 2)

- A page dedicated to TEAM's pro bono and community work
- Covers the People Leadership Programme (free initiative for primary school learners)
- Strategic advisory to churches and community organisations
- Not required for Phase 1

B3. Content & Downloadable Assets

The following documents and assets should be made available for download on the website. The website developer must ensure a clean download mechanism is in place for each of these:

Document	Where to Feature	Status
Company Profile (full)	Who Are We page, Contact Us	To be finalised from this document
Service Area Profiles (one per area)	Each service sub-page	To be created per area
Training Programme Overview	Service Offerings – Wellness & Human Capital	To be provided by TEAM
Case Studies (one per service area)	Why TEAM? – Success Stories	To be developed by TEAM
Online Questionnaire / Diagnostic Form	Service Offerings page, Free Diagnostic page	To be developed
Blog Articles / Excerpts	Ideas @ Work, relevant service sub-pages	Ongoing – posted by TEAM staff

B4. Development Phases

PHASE 1	Core website launch All main navigation pages, blog, contact form with FAQ bot, mailing list integration, event registration, Free Diagnostic (basic), domain redirects, business unit pages, downloadable content.
PHASE 2	Client portal & country pages Internal staff login (redirecting to Plutio), training portal for clients, country-specific sub-pages (Zimbabwe and Zambia), enhanced Free Diagnostic linked to Service Offerings.
PHASE 3	Journey to Significance & community impact Journey2Significance section, People Leadership Programme features, pro bono work showcase, advanced diagnostics and reporting.

B5. TEAM Consulting Contact Information

The following contact details should be used on the website and in all digital communications:

Organisation	TEAM Advisory Services / TEAM Consulting
Headquarters	Harare, Zimbabwe
Website	www.teamconsulting.co.zw (to be updated)
General Email	info@team.co.zw
Zimbabwe Office	ZW@teamadvisoryservices.com
Zambia Office	ZM@teamadvisoryservices.com
Phone	+263 77 220 2290
Redirect from	teamqlv.com → main site team.co.zw → main site
