Introduction

TEAM Consulting is a business advisory services company focusing on providing clients with solutions to their business needs through, training, business evaluations, consulting and implementation or management of activities on the behalf of the client.

It is our belief and firm conviction at TEAM that no organisation can operate successfully while neglecting the development of its people, as such we provide organisations with professional development services in three main thrusts;

1. **Training materials for use by organisation in their own training programmes (Includes Participant Hand-out, Trainer Guide & Presentation Slides)**
2. **In-house training to staff within the organisation**
3. **Open public courses that are tailored to the issues we have found through research and experience as being issues that keep executives awake at night.**

Detailed below is a catalogue of our training courses, we are also fully aware of the fact that these training are generic in nature and we would be happy to discuss and develop any specific training needs you may have. We also offer customisations of any of our existing training solution to suit you and your organisation. We also provide on-site support at agreed rates for those conducting their own trainings.

Strategy Courses

Strategy Oriented Business Excellence

    - Valuable tools for teams
    - Empowered Teams.

Outdoor Teambuilding Course

Sometimes all a team needs to create better rapport and sort out their issues is some time together in an unrestricted environment. As such we have embraced the idea of outdoor teambuilding, taking advantage of the existing teambuilding courses and conference facilities to offer a program structured around these.

Duration: 0.5 - 1 day

Audience: Organisational Teams at all levels

Venues: Mbizi Game Park, Tree of Life, Stephen Margolis Resort (We are also open to other outdoor sites as long as there is adequate space for us to set up our equipment)

Course Outline:

Shown below are examples of the course activities at some of the facilities we use as a guide showing the content and how we relate each one to teamwork?

Exercise Name	*Team Dynamics Involved*
Blind Fold Journey	This exercise helps teach individuals how to cope with change as a team and how to build a shared vision
Tyre Puzzle	Tough physical and mental exercise the teaches the participants the importance of having appropriate priorities
Stepping Stones	Teaches the team the value of following rules and working together to solve a common problem
Zip Line – (rope bridge and fuffy slide)	Makes teams Encourage and support one another as well as overcome fears.
Backward Fall	Encourages trust amongst team members who must catch each other on a backward fall of a ledge
Canyon Walk	Teaches sequencing and decision making skills within a team setting.
Tyre Wall	Teaches team to listen to one another and the importance of planning.
Swinging Surfboard	Teaches teams to identify critical success factors.
Heinz's leap	Teaches team to be innovative and learn to assess risks properly
Pampers Pole	Teaches team to identify each other's strengths and listen to one another and the importance of planning.
The Bridge	Teaches teams to identify critical success factors.
The Spiders Web	Helps to teach the team to strategise, make sacrifices and resolve conflict.
Mine Field	This exercise help teach individuals how to cope with change as a team.

Exercise Name	*Team Dynamics Involved*
Crocodile Creek	This exercise teaches the team the importance of communication and leadership.
Jail Break	Teaches the team the importance of perseverance as they climb of a wall to break out of jail together.

We have a wide range of outdoor activities that we can provide to the organisation and generally select and customise these to each organisations specific needs, the cost per person is also dependant on numbers and can be discounted for larger groups.

Indoor Teambuilding Programme

We also recognise that the outdoors is not for everyone as such we have developed a number of different programmes and exercises that can be conducted in doors and still allow a team to deal with issues around Communication, Conflict, Trust, Problem Solving, Etc.

Duration: 1 day

Audience: Organisational Teams at all levels

Course Outline:

Detailed below is an example of one of our indoors programmes

Timings	Event	Key Activities
Morning Session (0830 – 1000)	Introduction and Motivational Talk Getting to know one another and our specific team roles	• Facilitators will give staff a motivational talk on the importance of team work and having a positive attitude. • Staff will conduct a self-assessment of their team role preferences • Staff will introduce each other in an informal and fun way that will begin to establish trust
Noon Session (1030 – 1230)	Creating an appropriate Culture (Group Session)	• Group Discussions on organisational Values and how to live them • Staff sharing expectations for the organisation and their roles and clarify roles and responsibilities • Exercise to highlight the value of innovation and sharing ideas
Afternoon session (1400 – 1500)	Team Communication (Group Session)	• Numerous Exercises to emphasise the importance of good communication in a team.
Wrap up Session (1530 – 1600)	Team war cries (Group and combined session)	• Getting the group to work together to develop a war cry for the team and the organisation.

Overcoming the Five Dysfunctions of a Team.

This course is only conducted on an in-house basis and focuses on building a strong team within an organization in a specific area or a strong management team. The Course is based on the work of Patrick Lencioni of the Table Group (USA).

This model identifies five dysfunctions to team effectiveness as detailed below:

1. **Absence of Trust**
   The fear of being vulnerable with team members prevents the building of trust within the team.
2. **Fear of Conflict**
   The desire to preserve artificial harmony stifles the occurrence of productive, ideological conflict.
3. **Lack of Commitment**
   The lack of clarity and/or the fear of being wrong prevent team members from making decisions in a timely and definitive way.
4. **Avoidance of Accountability**
   The need to avoid interpersonal discomfort prevents team members from holding one another accountable for their behaviors.
5. **Inattention to Results**
   The desire for individual credit erodes the focus on collective success.

Using these five dysfunctions and techniques for addressing these issues will form a pivotal part of our methodology. An assessment of the level of dysfunctions of the team is conducted prior to the programme.

Duration: Depends on the Organisational needs (generally 2 days)

Audience: Organisational Teams at all levels

Day 1	
0900 – 1030	Introduction to the five dysfunctions (video & presentation) Feedback and discussion of team assessments
1100 – 1300	Trust - Exercises and activities to foster trust, including personal histories and Personality Assessments

1400 - 1530	Conflict - Session on different conflict styles and how to deal with conflict in a constructive manner
1600 – 1700	Commitment - Discussions on how to build commitment to different organizational initiatives
Day 2	
0830 – 1000	Day 1 Recap Accountability - Peer to Peer review and discussion on how to hold each other accountable
1030 – 1130	Peer Review Feedback and Discussion
1130 – 1230	Focus on results - Review on key results on the organization and developing collective targets for the team
1400 – 1530	Final session to review progress made and agree additional personal commitments and milestones for the team.

Post the workshop we will also provide the organisation with a report which the team can utilise to build upon the learnings from the exercise.

Other Teambuilding Activities

Although TEAM provides these structured teambuilding courses, we also pride ourselves in our ability to customise specific teambuilding activities for different organisations. These activities can be derived from any of our existing programmes and can be used in different setting such as

- Structured regular teambuilding process for an organisation
- In conjunction with another training programmes to cater for the team dynamics during the training

We are also happy to combine programmes into a hybrid offering if the organisation's needs demand this.

Supply Chain Management

Unlocking the Hidden Value in Procurement

This course is based on TEAM Consulting, renowned Value Added Procurement Methodology which focuses on developing, implementing and sustaining a strategic sourcing culture within an organization. This methodology has been tried and tested and reduced organisations purchased goods and services expenditure by anything between 5 and 20%.

    - Solving Common Project Management Problems, Project Management in a changing environment, Future and New Trends in Project Management

Development Programmes

Over time we at TEAM have recognized that individuals sometimes need a structured programme of training to ensure that they get a balanced exposure to the different business areas. It is in this light that TEAM currently offers the following consolidated development programs as outlined below: TEAM can however also develop a specific development program tailored to the needs of the organization. We are also happy to add any of our other courses to a programme or make adjustments in consultation with you.

Leadership Development Program

The Leadership Development program is structured to provide the leadership team of an organization with insight on issues that are crucial for effective leadership, this training assumes that the leader already has the basic skills of management. The programme is structured around 7 modules with each module running for a total of one and half days each broken down into three half day sessions in a month. Detailed below are the modules:

Module	Key Points
Personal Leadership	• Living a balanced lifestyle • Business etiquette • Personal planning
The Leadership Challenge	• Practices of effective leadership • Servant hood • Values based leadership
The Mind of the Leader	• Strategic Thinking • Critical thinking • Innovation and Creativity
Building Successful Relationships	• Knowing people • Motivating People • Coaching others • Giving and receiving feedback • Dealing with diversity
Communicating with Impact	• Effective communication skills and tools • Managing Meetings for success • Making a presentation • Reporting what matters
Leadership skills	• Win-Win Negotiations • Managing change • Assessing performance
Focusing on Results	• Business Analysis • Excellence • Business Reporting

Leadership@Work

The Leadership @Work programme is a unique approach to leadership development and is designed around 21 Modules that run for 1 hr a week, each of these hour sessions includes:

- 10 Minutes at the Start to reflect on the previous module and lessons learnt
- 45 minutes on the lesson for the day
- 5 minutes to discuss the daily work each participant will need to do in advance of the next lesson.

This format is designed so that the learning process is three fold, the participant will learn as the lesson is taken, they will then also learn by working on a daily reflection sheet reading a dedicated text and conducting various exercises and assessments for themselves and will also learn through sharing their experience with others at the start of the next lesson

The programme runs across four thematic areas as detailed in the table below:

Thematic Area	**Overview**	**Modules**
Leadership	Focusing on introducing the leader to the concept of leadership and what it means to lead oneself before leading others	• Personal Leadership • Goal Setting • Leadership Practices • Servant leadership • Motivating others
Mindset	This theme takes the manager through specific strategies on how to think for transformative change.	• Strategic Thinking Part 1 & 2 • Innovation • Creativity • Critical Thinking
Engagement	This theme will equip the manager to engage their teams and drive employee satisfaction.	• Understanding Employee Engagement • Building Employee Engagement • Coaching as tool for Engagement 1 & 2 • Effective Team Leadership / Delegation
Tools	No manager can achieve results without the necessary tools, we must provide the managers with the necessary tools to support their roles as leaders in the organisation	• Managing Change • Tools for Change • Building network • Conflict Resolutions • Negotiations • Business Excellence

Management Development Program

The Management Development program is structured to introduce the principles of management to those who have been recently appointed to management, and also act a as refresher to those who have been in management for a while. The programme is structured around 7 modules with each module running for 2 days. Detailed below are the modules:

Module	Key Points
Principles of Management	• Executing Strategy • Leading Teams • Organising People • Controlling processes
Operations Management	• Different Types of Operations • Productivity • Business Process Reengineering • Operations Scheduling and Project Management • Total Quality Management • Physical Asset Management • Constraints Management
