

TEAM Consulting Operational Blueprint

Radical Transparency. Quantifiable Value. Future-Proof
Delivery.

Core Functions: Market Facing

Consulting Delivery

The core "billable" work. This includes data analysis, client workshops, problem-solving, and producing final deliverables with high rigor.

Business Development

Identifying new opportunities, writing proposals, networking, and maintaining client relationships to secure future revenue streams.

Practice Building

Internal initiatives to grow the firm, such as developing new service offerings, refining methodologies, and enhancing the firm's brand presence.

Core Functions: Internal Foundations

Knowledge Mgmt

Capturing "lessons learned," creating templates, and ensuring intellectual property is documented so the firm doesn't "reinvent the wheel."

Finance & Admin

Managing budgets, invoicing, time-tracking, and ensuring internal operational compliance for the health of the practice.

People & Partnerships

Mentoring junior staff, conducting reviews, and participating in recruitment. This also covers managing our many associates we leverage for scale.

Role Details: Execution & Process

Junior Consultant

THE DATA & AI PILOT

Focus: Precision, speed, AI-augmentation.

Responsibility: Execution of the "Get" phase. Using AI to condense 10 hours of research into 2.

Naked Action: Owning mistakes immediately to build internal trust.

Consultant

THE WORKSTREAM OWNER

Focus: Process discipline, client peer-relationships.

Responsibility: Owning "Get the Value" milestones. Translating data into actionable steps.

Naked Action: Asking "dumb questions" in workshops to uncover hidden friction.

Role Details: Architecture & Strategy

Senior Consultant

The Architect. Designs implementation roadmaps.

Manages scope creep.

Naked Action: Calling out client behaviors that threaten success.

Principal Consultant

The Value Guardian. Identifying "Find" and ensuring "Keep". Bridge to Executives.

Naked Action: "Giving away the business" when tasks aren't needed.

Managing Consultant

The Practice Visionary. Strategy, weighted pipeline, brand authority.

Naked Action: Showing "secret sauce" upfront to build instant trust.

Evolution of Roles

From Doing to Orchestrating

Seniority is not just years of service. It represents a fundamental shift in how value is delivered to the client.

Junior to Senior: The shift from executing tasks to managing work and contributing to proposals.

Senior to Principal: The pivot point from project execution to revenue generation and relationships.

Managing Consultant: The "Business Owner" level. Value is measured by pipeline health and firm growth, not hours.

Time Allocation by Level

Level	Delivery (Billable)	Business Dev (BD)	Practice Building	KM & People
Junior Consultant	85%	0%	5%	10%
Consultant	75%	5%	5%	15%
Senior Consultant	60%	15%	10%	15%
Principal Consultant	40%	30%	10%	20%
Managing Consultant	20%	45%	15%	20%

** Percentages represent annual averages. Crunch times will skew figures.*

The Value Lifecycle Approach

1

Find the Value

DISCOVERY & DIAGNOSTICS

Identifying the "size of the prize" and root causes of friction.

Goal: Quantify potential ROI.

2

Get the Value

EXECUTION & IMPLEMENTATION

Heavy lifting: Process redesign, tech implementation, change management.

Goal: Bridge strategy-to-execution gap.

3

Keep the Value

SUSTAINABILITY & GOVERNANCE

Training, KPIs, and governance to prevent reversion to status quo.

Goal: Embed new ways of working.

Introduction to "Getting Naked"

1. Enter the Danger (Find)

Don't fear offending. If you see a cultural issue or failing leadership, speak up. We value "Kind Truth" over comfortable silence.

2. Ask "Dumb Questions" (Get)

Drop the expert facade. Ask "Why do we do it this way?" Humility often reveals that the client doesn't know either.

3. Give Away the Business (Keep)

Empower clients to do the work. Paradoxically, this generosity builds the trust that secures the next contract.

Key Performance Indicators

3X

LEVERAGE

The Profit Multiplier

Ratio of Junior to Senior hours. High leverage protects senior time and increases margins.

85%

RECOVERY TARGET

The Pricing Efficiency

% of "standard" fees actually collected. Low recovery signals scope creep or lack of transparency.

REFERRAL RATE

The Trust Metric

% revenue from existing clients. Proves we "Kept" the value and earned advocacy.

Scorecards: Performance Metrics

Role	Financial Indicator	Impact Indicator	Naked Indicator
Managing	Weighted Pipeline	Practice Recovery %	Referral Win-Rate
Principal	Managed Revenue	Value Realization %	Account Expansion
Senior	Leverage Ratio	On-time / Budget	"Danger" Convo
Consultant	Billable Util %	Workstream Efficiency	"Dumb" Questions

Unpacking Revenue Targets

Sales Target

WHO BRINGS IN THE CONTRACTS?

Managing	50-60%
Principal	30-35%
Senior	5-10%
Junior/Cons	0%

Billable Target

WHO DELIVERS THE HOURS?

Junior/Cons	25-30%
Senior	20-25%
Principal	10-15%
Managing	5-10%

Future Outlook: 2026 Trends

1. AI-Augmented Junior

Juniors move "up the stack" as AI handles basic research. They must learn "Judgment" immediately. One Junior + AI = Output of 3.

2. Outcome-Based Pricing

Clients pay for "Impact," not "Hours." Requires 100% transparency on what is achievable. "Recovery" depends on accuracy.

3. Boutique Dominance

Generalist firms are fading. Clients want deep niche expertise. Our agility and "Naked" approach is our primary sales tool.

4. ESG as Core Pillar

"Keep the Value" now includes environmental/social impact. Sustainability is baked into every strategy, not a separate offering.
